## Section 1.—GENERAL NOTES.

1. The tables contained in this Manual are drawn up on the Basis of basis of a campaign in a civilized country, and in a temperate establishment. When mobilization takes place under different conditions, climate. certain modifications will become necessary, and will be notified from the War Office.

2. The normal war establishment of a heavy artillery battery and War ammunition column, showing its composition as regards personnel establishment. and animals, is given in Section 2, and no men or horses in excess of the "total heavy battery and ammunition column" will be allowed to accompany the unit in the field.

3. The transport of the unit is shown after its war establishment. Transport. The transport is divided in the field as follows:—

1st line (which always accompanies the unit on the march); 1st line.  
gun carriages, vehicles with ammunition and technical  
stores, spare animals.  
Train (which marches as directed in orders); water cart and Train.  
G.S. Wagons with baggage, stores and supplies.

The G.S. wagons with the unit are numbered consecutively and Allotment allotted as follows:— of vehicles.

Battery	...Nos. 1 and 2...	for technical stores...	1st line transport.
	No. 3	...baggage and stores	} train "
	No. 4	...supplies	
	No. 5	...cooks	
Ammunition column	...Nos. 6 to 9	...ammunition	} 1st line "
	No. 10	...technical stores	
	No. 11	...baggage, stores and supplies	
			train "

The personnel for train transport is provided by the Army A.S.C. Service Corps; these men join the unit on mobilization drivers. fully armed and equipped. Spare drivers for train transport are included in the war establishment of the Army Service Corps company from which the train transport drivers are detached.

Spare draught horses are allowed at the rate of 10 per cent. A Spare special scale of heavy draught horses is allowed. A driver is horses. allowed for each pair of spare horses.

- Veterinary arrangements. 4. Veterinary arrangements will be made by the Director of Veterinary Services attached to the headquarters of the division.
- Medical arrangements. 5. Medical arrangements will be made by the Assistant Director of Medical Services of the division.
- Sanitation. Two men are trained in sanitary duties. On arrival in camp they are available for sanitary duties and are placed under the orders of the medical officer for camp sanitation purposes. Two men are also attached for water duties. At all other times they take their places in the ranks.
- Bâtmen. 6. Bâtmen in the field are allowed at the rate of one for each officer with one horse, and two for each officer with two or three horses. All bâtmén are fully armed and trained soldiers, and are available for duty in the ranks.
- Reinforcement. 7. Drafts to replace wastage are calculated for heavy artillery at the rate of 60 per cent. during the first year of a war. The first portion of these drafts mobilizes with the unit unless otherwise ordered, and proceeds with it as far as the oversea base; this portion is known as "first reinforcement," and is calculated at 10 per cent. of rank and file.
- War outfit. 8. War outfit is the material of all kinds which a unit requires for war. The method of carrying it is laid down in Sections 4-7.
- Equipment. (a) The equipment required on mobilization is laid down in the mobilization store table for a heavy artillery battery and ammunition column.
- Clothing. (b) The clothing and necessities required on mobilization are detailed in the Regulations for the Clothing of the Army, Part III.
- Supplies, Medical and Veterinary Stores. (c) Details of the scale of supplies will be found in War Establishments and Allowance Regulations; medical and veterinary stores in Regulations for Army Medical and Veterinary Services respectively.
- Stationery. (d) The stationery considered necessary for a heavy artillery battery and ammunition column in the field is shown in "Tables of Books, Army Forms and Stationery required on Mobilization by Units of the Field Army," issued with Army Orders. A list of contents is pasted inside the lid of the stationery box.

9. Blankets for personnel are not included in the normal scale of Blankets. war outfit; but, *when specially ordered*, one blanket per man will be carried. The methods of carrying blankets is for :—

Officers      ...      ...      ...      In valise.

Mounted non-commissioned officers } Under saddle, in addition  
and men      ...      ...      ... } to saddle blanket.

Dismounted non-commissioned } Distributed amongst lim-  
officers and men      ...      ... } bers and wagons.

When blankets (bedding) are carried on ammunition wagons and limbers, one waterproof sheet per seat (from the ordinary camp equipment of the unit) will be used to protect the blankets from wet.

10. General requisites, such as spare parts and materials for repairs, are calculated on the assumption that it will be possible to replenish them at intervals of about a fortnight. <sup>Replenish-  
ment of  
stores.</sup>

**Field glasses** will be carried on the belt on the right hand side.

**Revolvers and ammunition pouches** will be carried on the left hand side of the belt.

**Lanyards of clasp knives** will be worn round the top of the left arm under the shoulder strap, the knife in the left breast pocket of the coat.

B. *Non-commissioned Officers and Men.*

**Whistles** will be worn in the left breast pocket, with the leather thong attached to the second button of the coat.

**Haversacks** will be worn over the left shoulder.

**Water-bottles** will be worn over the right shoulder, the strap over the sling of the haversack, chain to the rear, the bottle under the left arm, the bottom to be as nearly as possible in line with the left elbow.

**Lanyards of clasp knives.**—As for officers.

**Greatcoats** of dismounted parties will be carried *en banderole* over the right shoulder secured at the ends by the mess-tin straps.

**Mess-tins** of men belonging to such parties will be carried in the haversack.

**Spurs** of men riding on vehicles will be carried in the haversacks.

**Bandoliers** are worn over the left shoulder, pockets to the front and are put on after the haversack and water-bottle. They can be adjusted by buckles on front and back so that the ammunition pockets do not impede the freedom of the right arm, or the sloping of the rifle on the left shoulder.

**Greatcoats** of Royal Garrison Artillery gunners when mounted will be carried on top of the limber and wagon bodies.

**Mess-tins** of these men (holes on top) will be attached to guard leathers of gun limbers and ammunition wagons by means of the mess-tin straps.

### Section 7.—CART AND WAGON LOADS.

#### A.

The distribution of the loads carried by regimental transport shown in this section, has been arrived at after a series of packing trials, and a departure from it would only be justified by exceptional circumstances. The weights of individual items in the loads, of different Marks of wagons, and of individual wagons of the same Mark, may be found to vary.
